Rome, Italy.

Dear Sir:

Permit me to acknowledge the receipt of the eleventh volume of "Corpus Nummorum Italicorum", which has just been received by this Society through the Royal Italian Embassy, as the generous gift of His Majesty the King of Italy. May I ask that you express to His Majesty our warm appreciation of his generosity. We are very glad to have for our library this very valuable work of reference which is consulted whenever questions concerning Italian numismatics have to be solved; it is in every sense a model.

Yours very truly,

Secretary.
